

## Science Communicator (m/f/d)

### About BioMed X

BioMed X is an independent research institute located on the campus of the University of Heidelberg in Germany. Together with our partners, we identify big biomedical research challenges and provide creative solutions by combining global crowdsourcing with local incubation of the world's brightest early-career research talents. Each of the highly diverse research teams at BioMed X has access to state-of-the-art research infrastructure and is continuously guided by experienced mentors from academia and industry. At BioMed X, we combine the best of two worlds - academia and industry - and enable breakthrough innovation by making biomedical research more efficient, more agile, and more fun.

### The Position

We are looking for a highly enthusiastic Public Relations specialist who will be responsible for our corporate communications and marketing. Your tasks include:

- Development and execution of a creative communication and marketing strategy in accordance with our core values and corporate identity
- Development of content concepts for online and offline media
- Writing press releases and scientific news posts
- Implementation and development of classic PR work
- First contact for all external communication topics
- Cooperation with external service providers
- Recruiting (active sourcing via social media)

### Your skills

- Degree in Life Sciences
- Track record in global communications
- Experience and high affinity in digital media and talent for social media marketing
- Familiarity with web design and publishing
- Excellent English-language skills with excellent written and verbal communication skills
- Command of journalistic skills (researching, writing,) with the ability to handle a diverse array of topics
- Proficient handling of MS Office applications, Adobe products and ideally Google Ads and Google Analytics
- Interest in current scientific events and topics
- Independent thinking and strong interpersonal skills

## Our offer

- A permanent part-time contract with initially 20 hours per week
- International, diverse, and positive work atmosphere
- Flexible working time and possibility for mobile work
- A competitive salary
- Access to a vast network in science and industry.
- Job ticket, sponsored fitness contract, complimentary fresh fruit, soft drinks and chocolate, team recognition events, etc.

## To apply

Please submit

- A cover letter, including salary expectations and your earliest possible starting date,
- At least two recent work samples
- 1 reference

via E-Mail for the attention of Yvonne Stappenbeck ([ys@bio.mx](mailto:ys@bio.mx)).

We are ideally looking for someone who can start as soon as possible.
